

Smart Living begins at the front door

Smart Wi-Fi **Video Door Bell**

1080P Full HD Video

Designed to represent an enhanced picture quality in full HD video so that every detail can be viewed with vivid clarity and a pixilated video feed can be avoided.

Talk to your Visitors

Enables you to stay in touch with your loved ones from anywhere, meaning you can also talk while viewing the live video feed on the phone.

PIR Sensors for Human Detection

Detects humans and sends intelligent alerts, which means it alerts only when the need occurs as this VDB detects people as opposed to animals, passing vehicles, or other inanimate moving objects.

Motion Detection Alerts

The PIR sensors in this VDB detect movements in the video frame and send alerts in real-time to always keep you notified about what's happening in front of your door.

Built-in Battery Back-Up

This VDB has been developed with an in-built battery for power support. The in-built is rechargeable and the VDB notifies you when it's time to charge.

SD Card Support

This VDB is a standalone device that has an advanced edge recording feature integrated within as it supports an SD card to record the video feed.

Chime

This VDB also comes with a movable USB Chime which you can connect anywhere and has 20 different tunes for you to select from. This Chime can also be paired with your smartphone.
